

GreenSmart™ 2 Gas Fireplaces

fireplace**x**trordinair™

7 Reasons to Choose a Gas Fireplace from Fireplace Xtrordinair

There are several important factors to consider when purchasing a gas fireplace, from reliability to safety and everything in between. Here are seven reasons for choosing a Fireplace Xtrordinair gas fireplace will ensure you are making the best possible decision and choosing the right fireplace for your home.

1. Industry Innovator

Fireplace Xtrordinair has been leading the fireplace industry for over 35 years with our unique and award-winning products and technologies. We are the biggest innovators in fire, winning more than 30 Vesta Awards and pioneering revolutionary designs in the art and science of fire.

Many Fireplace Xtrordinair gas fireplaces feature the award winning Ember-Fyre™ burner which won the Popular Science “Best of What’s New” award for its amazing high definition log set and burner that is so realistic you’ll have a hard time telling our gas fires from a real wood burning fire.

GREEN SMART™

All of our gas fireplaces feature the revolutionary GreenSmart™ 2 system: a collection of unique components such as Accent Lights, Comfort Control and a “Smart” Thermostat mode. Refer to pages 32 and 33 for a more detailed look at all the benefits GreenSmart™ 2 has to offer and why it makes our fireplaces very “green” to own and operate.

2. Versatility

Fireplace Xtrordinair truly offers a fireplace for every room in any home. With a wide variety of burners, heat outputs, and unique styles to choose from, we have the perfect fireplace to fulfill any of your heating and design needs.

3. Performance and Ease of Use

Our fireplaces are designed for maximum performance and to provide comfort and warmth under all conditions and for virtually any heating need.

Our user-friendly wall mount GreenSmart 2™ remote control allows you to operate every function of your fireplace from the comfort of your favorite chair or mounted on the wall.

4. Materials

Behind the beautiful flames is high quality construction made from the finest materials around the world to ensure longevity and durability that you won't find with any other fireplace. We stand behind the quality, workmanship and materials in our fireplaces with our “Real World” Seven Year Warranty.

5. American Made

Fireplace Xtrordinair proudly produces our high quality gas fireplace line at our 11-acre House of Fire manufacturing plant in Mukilteo, Washington. With over 400 dedicated employees, we are passionate about both the science and art of fire. If you're ever in the Seattle area, we invite you to take a free tour of our world-class manufacturing plant. For more details visit www.houseoffiretour.com

6. Attention To Details

Every detail counts when it comes to constructing our fireplaces. From our realistic, high definition log sets to our unique, hand-crafted faces, our attention to detail inside and out is unmatched.

7. Safety First

All Fireplace Xtrordinair gas fireplaces are tested to rigorous safety standards; in fact, we have an accredited safety laboratory at our factory. Our glass is even tested 10-times more than the industry standard because we want to ensure that you are putting the safest fireplaces made from the best materials in your home.

This brochure is divided into three sections.

Section One - Designs

Pages 3-13

Outlines all the beautiful face designs available for your Fireplace Xtrordinair gas fireplace. Picture the irresistible appeal of fire, framed in unique and rich metalwork that includes finishes such as hand-hammered bronze patina, and a variety of architectural styles or the 564 CF and 864 CF where no face is required.

Section Two - Fireplace Models

Pages 14-31

Pick the fireplace or fireplaces to make your vision happen. Our gas fireplaces are available in 9 models with different performance capacities and sizes to meet every heating need.

Section Three - Installation

Page 32-36

Almost all of our fireplaces provide for horizontal or vertical venting through the outside wall or ceiling, allowing you to install your fireplace almost anywhere in your home. All fireplaces ship as Natural Gas and include easy to convert LP (Propane) conversion kit.

Architectural Double Door Collection

Rectangular double doors
864 TRV with Common Brick Fire-

The **ARCHITECTURAL™** doors offer an elegant choice of rectangular and arched black painted double doors that fit all fireplaces, except the Bed & Breakfast. These beautiful doors can be opened to create the illusion of a much larger fireplace.

The Arch double door face can be finished with an arch template allowing the finish material to cover the backing plate for a completely arched appearance as pictured below.

Arched double doors.

Arched double doors shown when used with optional Arched Set Up Face.

Arched Face Collection

This living area features the Model 864 TRV with Brushed Nickel Classic Arch™ face and the Black Enamel fireback.

- A** Classic Arch detail showing the trademark Classic X and O pattern detail in brushed nickel.
- B** French Country Arch, showing the beautiful floral design motif.
- C** Model 564 HO French Country Arch, shown in black metallic painted finish, with optional Old World Stucco fireback.

Classic Arch™ Face

The original *Classic Arch™* face may be used with any Fireplace Xtrordinair gas fireplace. The graceful arch opening that frames the fire viewing area is complemented by a parallel arch face. This combination of curves has a timeless appeal and universal application for a wide range of architectural styles.

The beautiful parallel arch appearance and fine detail of this fireplace has become a unique, trademarked characteristic of Fireplace Xtrordinair, the original arched fireplace.

French Country™ Arch Face

The *French Country™* Arch face is a design that combines cottage style with a formal flare and it is exquisitely accomplished with a Fireplace Xtrordinair face. The combination of the engraved floral garland and the detail of the scalloped rings fits well into a country home or elegant, old chateau. The French Country face and style of decorating with its casual feel will warm the hearth of any home.

Classic Arch in black paint finish

Classic Arch in nickel plate finish

IronWorks™ Face

This great room features the Model 864 High Output with the bronze IronWorks™ face and includes the Handmade brick fire-back.

IronWorks™ Face

- A** IronWorks features hand-hammered detail on the functional doors.
- B** IronWorks Face shown on the 864 High Output fireplace with Lodge Ring Handle option.
- C** Lodge Ring Handle Detail.
- D** Chateau Handle Detail.

Custom Old World Design

The *IronWorks™* face is a study in craftsmanship and includes hand beveled edges, hammered, textured surfaces and fine details. The operable doors are finished on the inside and out to further enjoy the beauty of the fire and the Ironworks face with the doors open. You have the option of adding one of the two hand-forged handles: the timeless Lodge Ring or the stunning Chateau handles.

Hand-Finished Patina

The bronze patina finish is hand applied by skilled artisans and absorbed deep into the metal giving it the luster and beauty of an oil-rubbed bronze art piece. Each IronWorks face is individually crafted hand-polished and fired in an oven which imparts unique color subtleties with no two finishes alike. This bronze patina finish is a “living color” which will age and deepen over time.

Metropolitan™ Faces

Model 564 High Output shown with Black Painted Metropolitan face, Fyre-Stone Rock Kit and Black Enamel fireback.

Model 564 Space Saver shown with Brushed Nickel Metropolitan Face and Handmade Brick Fireback.

Metropolitan™ Faces

The *Metropolitan™* face design features the same beautiful grillwork as the Classic Collection, but in a linear, retro style. The beveled edges of the Metropolitan face design also create an intriguing, three-dimensional appearance.

Metallic Black Painted Metropolitan Face.

Brushed Nickel Metropolitan Face.

LIMITED AVAILABILITY

Artisan™ Faces

This rustic great room features the Model 864 High Output with the Artisan Charcoal face and Common Brick

Artisan™ Face Collection

The Artisan™ fireplace face design and craftsmanship are reminiscent of the ironwork in the Great Lodges of Europe and America. The Artisan face is hand-forged and hammered by master blacksmiths. Each face bears unique, subtle characteristics from the hands of its creator, making it an individual work of art in iron.

The face features a wrought iron window detail of chiseled and twisted steel framing the soft curve of a large glass viewing area.

A convection chamber which circulates heated room air around the appliance is concealed by a forged air intake and hot air return grill. Variations in the hand-forged metal texture will create an infinite variety of firelight reflections, whether you choose charcoal paint or hand-rubbed bronze patina.

Hand-rubbed bronze patina finish.

The patina bronze hand-rubbed process that drives the textures and colors deep into the metal - creating a unique high temperature permanent finish with subtle highlights. This process is exclusive to Fireplace Xtrordinair gas fireplaces.

Charcoal painted finish.

This Arts & Crafts den features the Artisan face in Bronze Patina on a Model 864 TRV fireplace with Common Brick fireback.

Grills/Louvers and Studio Trim

864 TRV shown with brushed nickel Studio Trim, Black Louvers and Common Brick fireback

The Studio Trim option fits around the perimeter of the fireplace face framing the fire like a beautiful picture. The Studio Trim is available in three-piece (for hearth mount) or four-piece (for wall mount) installations and is designed for use with the Basic Grill or Louvers. Add optional brushed nickel glass trim for an additional accent.

Shadowbox Face

564 Space Saver shown with brushed nickel Shadowbox, Stainless Steel Fireback option and Standard Log Set.

The Shadowbox face projects 3 1/2" out from your fireplace facing in multiple levels creating a frame for the delightful fire. The Shadowbox conceals the convection openings and the controls to give the fireplace a linear, contemporary appeal. The face is available with a subtle reverse bevel in either bold brushed nickel or sleek brushed satin black, layered with a subtle bevel on top of a black painted frame. This combination defines contemporary elegance.

Concealed manual controls are within easy reach to activate the flames, adjust the interior light level or change the convection blower output to your desired mood or comfort zone. On the 564 Space SAver and 864 TRV upgrade to a full function hand-held GreenSmart 2 remote if you wish. Add optional brushed nickel glass trim for an additional accent.

Bed & Breakfast™ GreenSmart™ 2 with Remote

The name Bed & Breakfast™ suggests intimacy and coziness, this gas fireplace embodies these very ideals. The Bed & Breakfast is designed for corner, flat wall or limited space installations in small intimate settings such as bedrooms, baths and kitchens. The "Portrait" design of the fireplace offers high heat transfer, neoceramic glass and a generous fire viewing area (303 sq. in.). With the award winning Ember-Fyre™ burner and high definition log set, the Bed & Breakfast fireplace gives you the ability to add a beautiful gas fireplace virtually anywhere in your home. Enjoy the flexibility of the Comfort Control™ which allows you to turn the flame down 70%! For maximum heat turn on the quiet 90 CFM blower to circulate heated air throughout the room.

Use your fireplace year-round, by using the standard Accent Light. The Accent Light adds warm, dramatic highlights to the logs and optional liners, and can be used when the fire is on or off. This fireplace includes the GreenSmart 2 Remote for the ultimate in convenience and efficiency.

Face Choices

564 Space Saver™ GreenSmart™ 2

The 564 Space Saver is designed to offer comfortable heat for the smaller rooms of your home. With its consistent, radiant and convective heat and the reduced dimensions, this fireplace is ideal for zone heating in bedrooms, dens and intimate spaces that do not require a great deal of heat.

The realistic flame along with the heat output can be easily adjusted with our Comfort Control™. This switch allows you to turn the back burner off while maintaining the front fire and glowing embers, giving the fireplace the ability to be utilized even on warmer spring or fall days.

The 564 Space Saver can be personalized for your home. Choose from something as simple as the basic grill or one of many different upgrade face options in various textures and designs. An optional 180 CFM fan increases movement of heated air around the firebox, maximizing heat transfer and performance.

Features

- Tempered glass: " 30" W x 16-3/4" H*
- Safety screen in front of glass.
- Split-flow Dancing-Fyre burner with high definition logs and embers for realistic flame.
- 8" Top and rear vent option on same unit.
- Accent Light

* Viewing area will vary with face design.

Additional Options:

- Wall Thermostat
- Basic Remote Control
- GreenSmart 2 Remote Control NG & LP
- On/Off Timer
- 180 CFM Convection Fan

564 Clean Face GreenSmart™ 2 with Remote

The 564™ Clean Face is the perfect choice for anyone looking to have a clean, tight fire view with no grills or facing. Its sleek, clean appearance allows the mantle or surround and the Dancing-Fyre™ log set to be the focal point of the room. The 564™ Clean Face is ideal for any small to mid-sized home or living space. Its transitional design and flexible installation options allow it to make a statement in both contemporary and traditional homes.

The 564™ Clean Face is a deluxe unit that includes the new GreenSmart™ 2 Wall Mount Remote Control and convection fan. Both of these items add efficiency and boost performance. And the wall mounted remote control adds convenience of operation from your couch or the wall holster.

Features

- Tempered glass: 30" W x 16-3/4" H
- Low visibility ANSI approved glass safety screen.
- Split-flow Dancing-Fyre burner with high definition logs and embers for realistic flame.
- Top and rear vent option on same unit.

564 Diamond-Fyre™ GreenSmart™ 2 with Remote

The 564 Diamond-Fyre™ does not utilize logs and embers. Instead, a sleek black enamel fire container holds the dancing flames. Glowing crushed glass lit from below with the standard accent lights, surrounds the fire and sparkles with tiny reflections of the flames. Firebacks are required, and you can choose the black painted fireback or opt for the black enamel or brushed stainless steel fireback which reflects the ever-changing flames, creating the illusions of multiple fires. Select from the three colors of crushed glass for the firebox floor- Platinum, Cobalt or Bronze for your own customized display.

The 564 Diamond-Fyre includes a single ribbon burner that will heat an area of up to 950 square feet. The 564 Diamond-Fyre comes standard with the fan and the GreenSmart wall mounted remote control.

Features

- Tempered glass: 30" W x 16-3/4" H*
- Safety screen in front of glass.
- Diamond-Fyre™ ribbon burner
- 8" top or rear vent options
- Interior Accent Under light
- 180 CFM convection fan
- GreenSmart 2 wall mounted remote control

* Viewing area will vary with face design.

Choose A Fireback

You have the option of adding a simple black painted interior or choice of stainless steel or black enamel interior liners that dramatically reflects the flame and glowing floor media in a multitude of patterns.

864 TRV - Top/Rear Vent GreenSmart™ 2

The 864 TRV is the perfect choice for anyone looking to display a big, beautiful fire without the need to heat a large area. This fireplace offers the ultimate heating flexibility, allowing you to control the heat output to a comfortable setting that is just right for you. The 864 TRV can provide great supplemental heat to your home on those cold winter nights or use the Comfort Control™ to turn the heat down and create a romantic, relaxing fire-side for those warmer nights. The 864 TRV fireplace features a beautiful 10 piece high definition log set and glowing embers and is enhanced further with rear accent lights that add a warming glow to the interior of the fireplace, even when the fire is off. The 864 TRV truly is a fireplace that can be used 365 days a year.

An optional 180 CFM fan can be added to increase the movement of heated air around the firebox, maximizing heat transfer and performance.

Features

864 Clean Face™ GreenSmart™ 2 with Remote

The large, clean fire view of the 864 Clean Face showcases the highly detailed Dancing-Fyre™ log set and glowing embers from any angle in the room. This all-glass appearance shows no visible face, grills or louvers, it simply highlights the fire. All of the components on this fireplace are controlled with the easy-to-use GreenSmart™ 2 wall mounted remote control. The 864 Clean Face comes fully loaded and includes accent lights and powerful convection fans for maximum heating performance.

The 864 Clean Face Gas Fireplace is the perfect solution for anyone looking to have a big, beautiful fire that provides supplemental heat. Ideal for small to mid-sized homes or zone heating in large living spaces such as great rooms and living rooms, the 864 Clean Face allows you to comfortably display a gorgeous, glowing fire all year-round while being able to control the heat output to a setting that is just right for you.

Features

- Tempered glass: 34-1/2" W x 22-1/4" H
- Split-Flow Dancing-Fyre burner with high definition logs and embers for realistic flame.
- Low visibility ANSI approved glass safety screen.
- Fully loaded GreenSmart™ 2 system.
- 8" top or rear vent installation options.
- Accent Lights
- Two 90 CFM Convection Fans.
- Wall Mounted GreenSmart 2 Remote Control.

Additional Options:

- Black Powder Coated Trim.
- Power Heat Duct Kit for transferring heat to one additional room in your home up to 20 feet away.

Optional Decorative Fireback Designs

The interior of the 864 Clean Face comes black painted. You have the option to personalize the inside of your fireplace with one of our beautiful fireback designs.

• Reversible Common/Herringbone Brick

• Reversible Diamond Mosaic Tile/Old World Stucco

• Stainless Steel Liner
Finish will patina with age.

• Black Enamel

• Handmade Brick

864 High Output™ GreenSmart 2 with Remote

The 864 High Output GreenSmart fireplace offers the same viewing area as the 864 TRV fireplace, but also offers three burner choices and is designed to heat a larger area - up to 2,500 square feet. With a 46,700 BTU input, high-heat transfer neoceramic glass and fan, all standard, this fireplace delivers the heat! This high output fireplace uses "film cooling" technology allowing for close clearances to combustibles, letting you install the mantel close to the fireplace in a traditional location. For ease on operation and convenience the 864 High Output fireplace includes the GreenSmart 2 Remote Control. You can heat your family's main living area or duct up to 30% of the heat to adjoining room(s) 20 feet away using the optional Power Heat Duct Kit, one or two kits can be used.

Interiors - Pick The Burner and Look That You Like!

Ember-Fyre™

The Award-Winning Ember-Fyre™ burner comes standard with a seven piece high definition logset and grate. A fireback is required and this burner allows for a choice of seven different options.

864 See-Thru GreenSmart™ 2

The 864 See Thru depicts tranquility with a perfect balance between its firebox, logs and flames. The logs and fire have been carefully designed to give you a different look from either side. Compare the amazingly high definition, eight piece logset with any other see-thru fireplace on the market! The 864 See-Thru fireplace will give you a warm, yellow fire with glowing embers that your friends and family will have a hard time telling apart from a real wood fire.

A Fireplace With Two Points of View

With two sides to the 864 See Thru Fireplace you get the ability to personalize each room using a different face on each side of the fireplace. Choose from the Basic Grill Set in black or pick one of the 12 beautiful upgradable faces in a wide variety of finishes and designs.

Optional Decorative Firebacks

34-1/2" W x 22-1/4" H each side
- Safety screen over the glass.
- Split-flow Dancing-Fyre burner for realistic flame.
- 8 piece log set - different look from either side.
- 8" top or side vent options.
- Accent Lights
- No hearth required.

** Viewing area will vary with face design.*

Additional Options:

- Wall Thermostat
- Basic Remote
- GreenSmart 2 Remote NG&LP
- On/Off Timer
- Power Heat Duct Kit
- Convection Fan 180 CFM

All fireplaces come standard with these great GreenSmart™ 2 features:

Comfort Control™

The Comfort Control switch operates the split-flow burner system standard on all models, except the 564 Diamond-Fyre. Push the button to OFF and your Comfort Control will turn off the rear burner while leaving the front burner on for an attractive flame appearance when less heat is desired. This feature offers a turn-down ratio of up to 72 percent. Push the button to ON and the rear burner will light, giving you maximum heat when you need it. This offers you the most beautiful fire and more heating flexibility than any other product keeping you comfortable year round.

Accent Lights

Accent Light(s) are a standard feature in all Fireplace Xtordinaire fireplaces. This feature adds a warm glow to the interior of the firebox and can be used when the fire is on or off. Perfect as a night light or soft indirect light for the room, the Accent Light allows visual enhancement of your appliance 365 days a year.

Accent Light Off

Accent Light On

Multi-Function Wireless Thermostat Remote Control

Functions of the Remote:

- Thermostat
- Flame Adjustment
- Fan Operation
- Accent Light Control
- Comfort Control™
- GreenSmart™ 2 /CPI Pilots

Choice of Pilot Modes

Easily Switch Between Pilot Modes:

GreenSmart™ 2 - Use in Summer or milder heating days to reduce gas consumption from the Pilot.

CPI - Continuous Pilot - Keeps Pilot on at all times. This warms the vent system to maintain strong draft in chimney and reduce moisture condensation on glass. Used in Fall/Winter or in cold climates areas.

Control Settings

Flame Adjustment

Adjust the height/heat of the flame as

you desire. 6 levels of flame height to choose from. Not used while in Smart Thermostat setting.

Convection Fans

Twin 90 CFM fans circulates room air around the firebox and delivers

heated air into your home. 6 speeds to choose from.

Accent Lights

Create a warm glow to highlight the fireplace interior. Use

year round to add ambiance. 6 levels to choose from.

Comfort Control™

Turn off the back burner which lowers the BTU input. In this way you burn less gas on milder

days when you want to enjoy a fire and not over heat your living area. Not applicable to the 564 Diamond-Fyre model.

Manual Setting

ON/OFF
Fire and Fan stay where you manually set it.

Thermostat Setting

Fireplace turns ON or OFF to maintain your desired home/room temperature.

Smart Thermostat Setting

Fire height will adjust automatically (up or down or OFF) to better maintain your temperature setting. A greener way to heat.

Use your smart phone or iPad™ to watch a video of home this GreenSmart™ 2 remote works.

GreenSmart™ 2 Split-Flow Burners

Fireplace Xtrordinaire burners are “two-stage” allowing for the back burner to be turned on and off with your Comfort Control. More comfortable, more efficient. Your fireplace will be equipped with either the Dancing-Fyre, Ember-Fyre or Diamond-Fyre burner. This feature is not available on the 564 SS Diamond-Fyre model.

**Popular
Science**

Dancing-Fyre™ Burner:

The Dancing-Fyre is found in our 564 Space Saver, 564 Clean Face 864 Clean Face, 864 TRV and 864 See Thru fireplaces and as an option on the 564 High Output and 864 High Output models. These models feature high definition log set offering a beautiful fire and glowing ember effect.

Ember-Fyre™ Burner:

The Award-Winning Ember-Fyre™ burner is found in the 21 TRV, and as an option on the 564 High Output and 864 High Output models. The Ember-Fyre is known for its gorgeous, dancing yellow-flame fire flickering around a high definition log set and glowing embers for the most realistic “wood-like” fire available.

Diamond-Fyre™ and Diamond-Fyre™ II Burner:

The Diamond-Fyre Burner is found in the 564 Diamond-Fyre Fireplace. This fireplace features 10 accent lights shining up through the glass burner and around the fire pot adding ambiance year around whether you are enjoying your fireplace with your fire on or off. You have 3 choices of glass from the Platinum color which looks like sparking white diamonds to the deep blue of the Cobalt glass which resembles shimmering sapphires.

The Diamond-Fyre II Burner is an option in the 564 High Output and the 864 High Output Fireplaces. This burner features under lit glass as well, but teamed with either the Fyre-Stone Rock Kit or the Driftwood Fire Art for a beautiful, eclectic blend of media.

NOTE: Improper installation of your gas appliance or failure to operate it in accordance to the guidelines detailed in the Owner's Manual may negate your warranty and endanger your home and family. Installation information is available on our website at www.fireplacex.com. We recommend all Fireplace Xtordinair appliances be installed and maintained on an annual basis by your Specialty Hearth Retailer.

Vent Heat To Other Rooms With The Power Heat Duct Kit

This venting option delivers heat off of the fireplace to additional zone(s) within your home. This allows you to heat more of your home more quickly. At the time of framing determine where you want to direct the heated air - upstairs, downstairs or anywhere in your home within 20 feet of the fireplace. You have the option of adding one Power Heat Duct Kit on the 864 TRV and 864 See Thru or up to two on the 564 High Output and 864 High Output. The Bed & Breakfast, 564 Space Saver and 564 Diamond-Fyre models do not have the option of adding the Power Heat Duct Kit.

Real World Warranty

Your gas fireplace is backed up by a network of Specialty Hearth Dealers and certified factory trained installers. Fireplace Xtrordinair warrants our products to be free from defects in material and workmanship for a period up to seven years from date of purchase. All parts, electronics (except light bulbs), and labor are covered for a full two years. Trim and faces are covered for a period of two years. No other manufacturer's warranty can compare.

Child Protection

Children, like most of us, are fascinated by fire, and for families with young children, fireplaces pose a potential safety hazard. Take the time to educate young children about the dangers of fire and the hot surface temperatures of glass and metal surrounding the fireplace. If you have an infant or toddler consider installing a fire screen; make sure it's tall enough so that children can't climb over it, and that it's placed far enough away so that reaching arms can't touch the surfaces of the fireplace. A few precautions such as these will allow everyone in your home to safely enjoy the comfort and warmth of your new gas fireplace.

Design Your Perfect Fire Online

Customize the right fireplace for you. The www.fireplacex.com website. The Fireplace Xtrordinair Fire Designer can help you customize your fireplace with an easy and fun website that helps you choose the right insert for the right space and for the right look.

Additional Fireplace Xtrordinair Products

If you are in the market for other hearth products, Fireplace Xtrordinair manufactures a full line-up of wood, gas and electric fireplaces and wood and gas fireplace inserts.
