Value. Efficiency. Promise.
Entrust your home to Hearthstone.

Enduring Value
A Hearthstone speaks of quality and commitment. Integrating superior materials and high-end design, a Hearthstone provides you with value, efficiency, and promise. We handcraft each Hearthstone with assurance and commitment to meet the highest standards. Time-tested craftsmanship, the finest materials, and advanced heating technology guarantee that your Hearthstone is clean-burning and efficient.
That’s value.
Every Hearthstone soapstone stove is signed by the stove builder.

**True Efficiency**

The efficiency is found in our soft, enduring warmth. This long-lasting warmth is HeatLife - the ability to emanate a steady, radiant heat. Hearthstone HeatLife is superior. A Hearthstone generates a consistent heat that keeps your home warm longer.

The secret is in soapstone - soapstone naturally absorbs the heat of your fire, stores that heat, and then radiates it evenly throughout your home. We use soapstone so you enjoy soft, stable, and efficient heat - long after the fire is out.

We balance the natural heating qualities of soapstone with our clean-burning secondary combustion system. We use a passive, self-regulating system that ensures your Hearthstone burns as clean as possible, at whatever rate you’re burning.

All Hearthstone wood and pellet stoves are EPA certified and are among the cleanest burning – if not the cleanest burning – biomass fuel models available.

No fuss. Little maintenance. With one lever, you control the burn rate. Your Hearthstone burns cleanly and effectively on any setting. Ultimately, you use less wood and enjoy a relaxing heat.

That’s efficiency.

**Our Promise**

For more than 35 years, dedicated Vermont craftsmen have been committed to building quality stoves. It’s our commitment - our guarantee - that each Hearthstone is built with integrity in the Hearthstone tradition. Hearthstone continues to meet its promise of value, efficiency, and unmatched appeal. Your Hearthstone will serve you faithfully for years to come.

That’s our promise.
A POWERHOUSE TO HEAT
THE MOST GENEROUS LIVING SPACES

Our largest soapstone stove, the Equinox possesses the strength to heat your entire home. Pack the generous firebox and enjoy an unmatched, long-lasting HeatLife – true of only a Hearthstone.
MANSFIELD SOAPSTONE WOODSTOVE

MANSFIELD 8012

FEATURES AND BENEFITS

• Deep firebox – easy to load front-to-back, and side-to-side

THE TRADITIONAL BEAUTY OF CAST IRON IN YOUR HOME

A generous heating capacity allows the Shelburne to heat large areas of your home with ease. Traditional cast iron style is complemented by functionality: a soapstone-lined firebox extends the HeatLife; an oversized self-cleaning window makes loading easy and enhances your fire viewing. The Shelburne delivers Hearthstone quality in classic cast iron style.

SHELBURNE 8371 FEATURES AND BENEFITS

- Soapstone-lined 2.0 cubic foot firebox – extended HeatLife
- Reversible top or rear flue – flexible installation (freestanding or hearthmount)
- Single lever stove control – easy operation, consistent performance
- Non-catalytic combustion system – clean burning, efficient, reduces creosote build-up
- Removable ash tray – easy to clean, easily accessible

**NOTES**

- Additional finish options are available by special order with your dealer or visit www.lima.cc
- Inquire with your dealer or visit www.hearthstone.com for finish options.
- Minimum Hearth Protection US/Canada: Ember Protection Only
- Centered on pad with stove free to rotate
- Centered on pad with stove locked in position
- From door opening

---

**STYLE AND EFFICIENCY IN MODERN EUROPEAN DESIGN**

The Lima combines style and utility to meet your needs. A ceramic construction delivers pleasing, radiant warmth. A curved glass window provides an amazing view of the fire. Rotate the Lima and extend the fire enjoyment throughout your space.
THE PERFECT BALANCE OF FORM AND FUNCTION

Compact and easy-to-operate, the Tula easily fits into any living space and lifestyle. A unique glass frame offers a large viewing area. EPA-certified for its clean burn, the Tula produces a clean and efficient flame.

TULA 8190 FEATURES AND BENEFITS

- Ultra high efficiency of 88% – reduces heating costs
- Generous firebox – burn 17” logs vertically
- Double steel wall construction – reduced clearances, encourages airflow, moves heat throughout home
- Non-catalytic combustion system – clean burning, efficient, reduces creosote build-up
- Removable ash tray – easy to clean, easily accessible

SPECIFICATIONS

Heats up to .................................. 1,200 sq ft
Firebox Capacity ................................ 1.15 cu ft
Size .............................................. Up to 30,000 BTUs
EPA Certified .................................. 2.6 gph
Efficiency ...................................... 88% LHV
Burn Time....................................... Up to 6 hours
Maximum Log Length......................... 17”
Flue Exit & Diameter Top - 6”
Ash Pan ........................................ Included
Rear Heat Shield ................................ Integral
Outside Air Adapter ......................... Optional
Actual Weight ................................ 291 lbs
Alcove Certified ............................... Yes
Mobile Home Certified ..................... Yes

MANCHESTER

FINE-LINED EUROPEAN CAST IRON
COMPLEMENTED BY PROVEN TECHNOLOGY

The Manchester Pellet brings you convenience and advanced technology in an attractive Hearthstone cast iron design. With a generous heat output and a low EPA emission rating of 1.3 gph, the Manchester is one of the most efficient and clean burning pellet stoves in the industry.

MANCHESTER PELLET 8330
FEATURES AND BENEFITS

• High-efficiency tube heat exchanger – maximizes heat transfer to your home
• High-quality fans and few moving parts – quiet operation
• Oval burn pot – creates an unparalleled flame
• Finished firebox interior – enhances the flame picture
• Automated control system – self adjusts the combustion settings
• Automatic cleaning cycles – minimize manual cleaning

FINISH OPTIONS:
- Matte Black
- Brown Majolica Enamel

Manchester Pellet stove featured in Brown Majolica Enamel.

Manchester Pellet stove featured in Matte Black.

MANCHESTER PELLET 8330
SPECIFICATIONS

Heats up to 2,000 sq ft
Burn Rate Range 1.8 to 6.0 lbs per hour
Size 15,300 to 51,000 BTUs
EPA Rating 1.3 gph
Efficiency 87%
Hopper Capacity Up to 60 lbs.
Vent Size 3” exit, 4” recommended
Outside Air Int. 2 inch diameter
EZ Comfort Control Included
Ash Pan Included
Convection Blower Included
Electrical Rating 120 volts, 60Hz, 4Amps
Actual Weight 385 lbs
Alcove Certified Yes
Mobile Home Certified Yes

THE ALLURE OF CAST IRON AND STONE IN A HIGH PERFORMANCE PELLET STOVE

The Heritage Pellet offers the convenience and sustainability of pellet burning with exceptional aesthetic appeal. High efficiency performance lowers fuel consumption, while high heat output enables the Heritage Pellet to heat up to 2,000 square feet.

FINISH OPTIONS:
- Matte Black
- Polished Soapstone
- Brown Majolica Enamel
- Sahara Sandstone

HEIRAGE PELLET 8091
FEATURES AND BENEFITS
- High-efficiency tube heat exchanger – maximizes heat transfer to your home
- High-quality fans and few moving parts – quiet operation
- Oval burn pot – creates an unparalleled flame
- Finished firebox interior – enhances the flame picture
- Automated control system – self adjusts the combustion settings
- Automatic cleaning cycles – minimize manual cleaning

SPECIFICATIONS
- Heats up to: 2,000 sq ft
- Burn Rate Range: 1.6 to 6.0 lbs per hour
- Size: 15,300 to 51,000 BTUs
- EPA Rating: 1.3 gph
- Efficiency: 87%
- Hopper Capacity: Up to 50 lbs.
- Vent Size: 3" exit, 4" recommended
- Outside Air Inlet: 2 inch diameter
- EZ Comfort Control: Included
- Ash Pan: Included
- Convection Blower: Included
- Electrical Rating: 120 volts, 60Hz, 4Amps
- Actual Weight: 385 lbs
- Alcove Certified: Yes
- Mobile Home Certified: Yes

CLEARANCES TO COMBUSTIBLE MATERIALS

- Vertical Vent
- Ember Protection Only
  - 6" / 18" from door opening
  - 2" all sides (Venting manufacturer’s Specification)
- 2½" / 10½" from combustible wall

Heritage Pellet featured in Brown Majolica Enamel and Sahara Sandstone.

Heritage Pellet featured in Matte Black and Polished Soapstone.
CLASSIC GOOD LOOKS, CONTEMPORARY PERFORMANCE

With classic style and radiant heat, the Hearthstone Deva does it all: cooks your food, warms your home, and enhances your kitchen. This wood-fired cookstove features a beautiful cast-iron-with-nickel-trim construction and user-friendly controls. Handsome and well-crafted, the Deva evokes memories, nostalgia, and pleasure.

DEVA 8220 FEATURES AND BENEFITS

- 2.47 cubic foot oven (17.25" W x 15" H x 17" D) – large enough to cook a 20 pound turkey
- Large window – easy to monitor cooking
- Vitreoceramic cook top – easy to clean, efficient heat transfer
- Oven temperature control – simple operation, easy to control, consistent
- Centrally located thermometer – easy visibility, precise temperature control
- Single lever stove control – easy operation, consistent performance

SPECIFICATIONS

Firebox Capacity: 1.6 cu ft
Size: Up to 46,000 BTUs
EPA Rating: Exempt
Maximum Log Length: 17"

(1) The amount and weight of wood contained per cubic foot of firebox volume can vary from 15 to 38 lbs. per cubic foot depending on type of wood, moisture content, packing density, and other factors. As a constant for comparison and test purposes, we are assuming 20 lbs. of seasoned hardwood per cubic foot of firebox volume.

(2) See Owner’s Manual for specific alcove clearances and alcove hearthpad requirements.

(3) Heat output will vary depending on frequency of loading, the dryness and quality of wood used, packing density, and other installation variables.

(4) Efficiency measured at lower heating value (LHV).

(5) Heating capacity is an approximation dependent upon type of wood, loading configuration, floor plan, ceiling height, house construction, venting configuration, heat loss, geographic location of home, and other usage and regional variables.

(6) HeatLife™ is a trademark of Hearthstone Quality Home Heating Products and is defined as the quantity of heat stored within the thermal mass of the stove. Used here, it refers not just to burn time but to total hours of usable heat from a single load of fuel.

(7) Clearances on this page are for reference only. Refer to the Owner’s Manual for exact specifications prior to installation.

(8) The Manchester rear heat shield is built in; there is an optional Close Clearance heatshield which may further reduce rear clearances to 6".

(9) See Owner’s Manual for specific hearth material and R-value requirements.

Note: Always refer to the Hearthstone Owner’s Manual and the local authority having jurisdiction in your area for the specific installation requirements for your product. Warranty: Hearthstone warrants all its wood and pellet products to the original purchaser for the lifetime of the appliance to be free from defects in material and workmanship, with certain limitations as defined in our Limited Lifetime Warranty policy. See your Hearthstone dealer for complete details and a copy of our warranty policy.
